

TRAINEESHIP

1

deadline:
see assessment form

OBJECTIVES

- Dealing with an environment where students and teachers speak a language I don't know. Adapting to an educational context with a language barrier, learning to actively observe and interpret classroom dynamics beyond language.
- Contributing to and supporting the teacher in charge of the classroom as much as possible. Offering my knowledge and skills to the classroom.
- Creating a safe and supportive environment for the students.
- Exploring the educational system and the role of the teacher.

objectives before start
traineeship, discussed with
mentor

After the first days at the school, I decided to rewrite one of my objectives to fit more with what I will be working on during my traineeship. Below you will find the final objectives.

FINAL OBJECTIVES

- Dealing with an environment where students and teachers speak a language I don't know. Adapting to an educational context with a language barrier, learning to actively observe and interpret classroom dynamics beyond language.
- Creating several lesson plans to share my culture, language and knowledge with the students. Using the knowledge and skills I have acquired during my traineeship.
- Offering my knowledge and skills to the classroom.
- Exploring the educational system and the role of the teacher.
